

SubArc Manual Flux Hopper

Submerged Arc
Welding 

Quick Specs

Heavy Industrial Applications

Pressure vessel
Pipe fabrication/construction
Fabrication
Manufacturing

Processes

Submerged arc (SAW)

Input Power

Compressed Air

Flux Capacity

Load: 7kg

Features:

Manual control on of valve.

Simple and reliable

Load Rating

Maximum load rating of 7 kg flux

Construction

All steel welded structure. Powder Paint

Air powered

Clean dry air at 3.5bar

Cyclone flux recovery

Low wear on flux particles

Flux level indication

Through side window

Special fabric filter bag material

Efficiency solid particles 90 μm 96.6%, 100 μm 99.8%

Weight

Empty weight : 7.8 kg

Ordering info

156102016

SubArc Manual Flux hopper with air powered recovery
